

Luxury Architectural Hardware since 1868

Designed, crafted, and perfected in England.

**A beautifully crafted,
all-encompassing
portfolio of luxury
architectural hardware.**

A story that begins in 1868, developing over five generations of our founder's family.

Designing and manufacturing just a short walk from our original site. Our factory continues to be a source of pride, creativity combined with knowledge and a passion for what we do.

Unparalleled attention to detail, world class performance statistics, a long-standing reputation for excellence.

We want you to feel part of that.

Our Values

With a luxury portfolio comes a first-class service. From your initial enquiry through to the delivery of your order, every member of the Croft team approach their work with habitual care and diligence.

By aligning with our values, we continue to uphold the high standards passed down to us from previous generations that we have become so well-known for.

Collaboration

Excellence happens when brilliant people work together

Care

From start to finish, the Croft experience is always an exceptional one

Craftsmanship

We bring artistry and craft together to lay the foundations for something beautiful

Curiosity

Innovation occurs when we see obstacles as opportunities

Commitment

Great culture, community, and care for the world we live in

Our Finishes

Add that perfect finishing touch to your Croft project with a choice of our finishes & patinas.

Our finishes have been individually developed by our skilled craftsmen, with many still being expertly hand applied.

**Polished Brass
(PB)**

Solid brass, polished to flawless perfection, then protective lacquered to maintain that high point of lustrous beauty.

**Polished Brass Unlacquered
(PBUL)**

Solid brass supplied unlacquered, allowing the ageing process to develop a natural patina.

**Smoked Brass
(SMK)**

A distinctive smoked living finish, skilfully applied to solid brass and finally covered in a thin layer of beeswax, further adding to that touch of elegance.

**Light Antique Brass
(LAB)**

A smooth living finish, softer and warmer than our Antique Brass. Hand applied with individual character.

**Aged Brass
(AGD)**

Uniquely aged by hand to give the appearance of a timeworn product, with warm mellow tones. Being a hand produced living finish, each product has individual character.

**Antique Brass
(AB)**

A final hand-finishing step creates a mellowed aged patina, emulating an aged finish that comes with long use. A hand applied living finish, resulting in every item being unique.

Satin Brass (SB)

The warmth of brass, polished to a smooth satin perfection. Finished with protective lacquer to 'capture the moment'.

Satin Brass Unlacquered (SBUL)

The warmth of brass polished to a smooth satin perfection, supplied unlacquered to allow the development of a patina from natural oxidization.

Polished Chrome (CP)

Solid brass is plated in highly polished chrome for a stunning mirror smooth finish, often suited to more contemporary environments.

Satin Chrome (SC)

Solid brass is sateen polished and plated in chrome for a uniformed beautiful satin finish.

Polished Nickel (PN)

Warmer and deeper than a chrome finish, and reminiscent of the finest silver.

Satin Nickel (SN)

An elegant, fine silver style, matte finish with a warmer undertone than chrome.

Pearl Nickel (PRL)

A unique finish, gentle tones with a hint of yellow pearls.

Antique Nickel (AN)

A blend of nickel and hand applied patina create a rich aged effect. Finished with a protective lacquer.

Distressed Antique Nickel (DAN)

Distressed surface finish with charcoal tones, perfectly complements natural stone textures.

**Autumn Bronze
(AUT)**

Warm and textured in appearance, a living finish with an array of brown and red undertones.

**Imitation Bronze Metal
Antique (IBMA)**

A lacquered finish, complementing nature's rustic tones.

**Distressed Antique Brass
(DAB)**

Our antique finish, further distressed to give an authentic aged and used appearance.

**Imitation Bronze Unlacquered
(IBUL)**

A warm bronze finish applied over brass. Normal handling reveals the aged brass beneath, creating a beautiful look.

**Matte Black Bronze
(MBK)**

A matte living finish, applied over brass for an intense rustic black bronze appearance. Finished with an application of beeswax.

**Oil Rubbed Bronze
(ORB)**

Our matte black finish with subtle bronze edging giving individual character to each product.

**Dark Bronze
(DBMA)**

Solid brass with a final hand-finishing step adding a stunning dark bronze look. A protective lacquer is applied to complete the process.

**Zero Black
(ZB)**

Crafted from solid brass and protected by a lacquered coating, Zero Black is hand-finished and cured in an oven to provide increased durability and preservation. Zero colour, zero shine.

**Distressed Oil Rubbed Bronze
(DORB)**

Further age and depth is added to our Oil Rubbed Bronze, creating a stunning distressed look and textured patina. This is a hand produced finish, giving individual character to each product.

Cast from Solid Bronze

Real Bronze (RBMA)

Highly polished living finish on a sand casting of solid bronze, traditional methods give an array of colours in the tone and finish.

Tudor Bronze (TB)

A sand casting of solid bronze, traditionally produced to recreate a bygone era.

Although the images contained within this literature offer an excellent representation, both printing limitations and the hand application process can result in natural variations in colour and texture.

Croft Bespoke

It begins with your moment of inspiration, allow us to do the rest.

Croft are proud to have crafted bespoke products for icons of luxury, the Venice Simplon-Orient-Express and Belmond British Pullman.

A full feasibility study from our Bespoke Project Team ensures you get our guidance and advice from the very beginning.

We use technical drawings and CAD 3D renders for visualisation ahead of prototype with intricate 3D Prints to aid.

We have a proud heritage of producing custom pieces, building vast knowledge and expertise.

Croft Refurbishment

Unique items deserve to be preserved. Our craftsmen are experts in repair and restoration.

We have worked on Historic Estates, Stately Homes, Luxurious Hotels, and Royal Palaces. Individual pieces to restoration projects.

Our factory makes the finest architectural hardware, we have everything needed to restore yours.

'Croft's work is always of the highest standard and the service they provide is second to none.'
